

# F5 Agility 2014 Asia Pacific

**Jezmynn Koh, 2014-26-05**

---

At F5 Networks, we create solutions that enable highly capable and easy-to-manage networks for our customers—networks that are far more than the sum of their parts.

We celebrated our products and solutions at the F5 Forums and F5 Agility 2014 across Asia Pacific over a three month period. It was bigger and better than ever before, gathering more than 2,000 - including executive decision makers, senior IT management personnel, and key IT purchasing influencers across the region.

This year, the theme of F5 Forum was “Solutions for an application world” with focused conversations around “Software Defined Application Services” for Security, DDoS, Anti-fraud, Mobility and Cloud solutions.

Below is a summary of all the highlights gathered from Twitter -
