

# Get Learned: 4 Minutes on IPv4 / IPv6 from Interop

**Jeff Browning, 2011-31-03**

---

For those interested, there's a great series of videos cropping up as the Interop folks and vendors begin staging infrastructure to support the event (starting 10-May in Las Vegas). The latest takes on the issues with IPv6 and includes a nice cameo by one of our favorite, highly-talented tech stars... BIG-IP!

Some good stuff with that helps those not in the know about IPv6 "get learned" in just over 4 minutes. Check it.
