

Hello to the F5 APJ Blog

Jezmyynn Koh, 2014-16-01

Thanks for joining us on the F5 Blog! Here's where you can access the latest news and views on the tech industry in the APJ region – from insights and trends to commentaries. F5's team of subject matter experts will be explaining, discussing and pondering the issues affecting enterprises across all industries.

We are ready to kick-off 2014 with our '*F5 predictions*' series. This will cover our F5 experts' perspectives and predictions for the year ahead. [With Gartner predicting that IT spending will hit \\$3.8 trillion in 2014](#) - an increase of 3.6 per cent compared to last year. The question many of us will be asking is what are the priorities? New devices and technologies will dominate our personal and business lives and 'social intelligence' will become more important. More on this will follow shortly. So bookmark our F5 blog to keep with the latest technology trends from across the region.

And of course, we encourage you to engage with our posts and share your input. We'd further love to get your feedback on what you want to see discussed in the future. We look forward to hearing from you!

For more information on F5, our partners, and technologies please check out our [Twitter](#) page.
