

Interop 2014: F5 Synthesis Whiteboard (feat Wagner)

Peter Silva, 2014-02-04

Synthesis in the Wild! Tim Wagner, Manager, Field Systems Engineering, shows how he whiteboards the [F5 Synthesis](#) story to help organizations understand the value of SDAS – Software Defined Application Services. He discusses SDN and how that works within a Layer 2/3 environment and the power of SDAS for Layers 4-7 with its ability to apply important services to the applications that need it...all on a single platform. Interesting discussion on how marketing visions translate into real customer solutions available today.

ps
