

Lightboard Lessons: OWASP Top 10 - Broken Access Control

John Wagnon, 2018-24-01

The [OWASP Top 10](#) is a list of the most common security risks on the Internet today. Broken Access Control comes in at the #5 spot in the latest edition of the OWASP Top 10. In this video, John discusses this security risk and outlines some mitigation steps to make sure your web application only allows access for the correct users.
