

# NetOps Meets DevOps - The State of Network Automation Survey

Peter Silva, 2018-27-06

We want to understand your company's current application architectures and the adoption of continuous delivery and continuous deployment practices within your organization. Please answer some brief questions about:

- How important automation is to your application deployments
- Drivers for continuous delivery and continuous deployment (CD/CD)
- Current challenges and concerns with respect to network and security operations
- How your future initiatives are shaping your plans for network and security automation
- Usage of automation tools across public and private cloud

Please note that your responses will be confidential and reported only in aggregate. As a thank you for participating, you will receive a copy of the final aggregate survey results and, a lucky participant will receive a \$500 Amazon gift card.

## All information will remain confidential

This survey is being administered by an independent research company on behalf of F5 and Red Hat. Your answers will be kept strictly confidential and your feedback will be combined with the feedback from all respondents worldwide.

**UPDATE:** The report has now been finalized and can be found here: [NetOps Meets DevOps - The State of Network Automation](#)

Many thanks from the DevCentral Team!
