Deb Allen, 2008-21-04

Podcast: [17 April 2008](#)

My Tech Tip for this week:

[LTM: Dueling Timeouts](#)

Learn about setting appropriate connection timeout combinations for LTM.

Forums posts I mentioned:

[GTM DNS responses not reflecting pool availability](#)

Customer was getting "bad" answers from GTM, and 3 different responses gave excellent advice

[comparison other than "equals" for text](#)

Customer was looking for gt/lt alpha comparison, hoolio & joe jump in and progressively define a workable algorithm using switch -glob

A couple of notable wiki updates:

Updates to [persist](#) & [session](#) pages to include details from this article about braces & quotes & variable expansion:
[iRules Optimization 101 - #4 - Delimiters: Braces, Brackets, Quotes and more](#)

DCTV "Post of the Week":

[LTM: Persistence & Pool Member State](#)

Learn how LTM manages connections based on pool member state & persistence options.
