

Post of the Week: iControl REST Subcollections & ZoneRunner Options

Jason Rahm, 2017-06-10

In this episode of Post of the Week, Jason addresses a couple iControl REST issues that come up in Q&A often: [confusion over how to handle objects that are not sub-collections](#), and [options for working around the lack of F5 DNS cli for ZoneRunner](#).

The procedures for safely updating the BIG-IP named files are covered in [knowledge base article K7032](#) on AskF5.
