

The First American Corporation Case Study - F5 Networks

Peter Silva, 2010-23-04

Watch how First American Corporation was able to consolidate and virtualize their infrastructure with BIG-IP LTM, GTM and FirePass SSL VPN providing them with the flexibility & speed to market their business required. From 750 machines to just 75, Jake Sietz of the Enterprise Architecture group talks about how they achieved performance gains, faster log in times, better service and disaster recovery.
